WELCOME

Welcome to We Are Social's **2016 DIGITAL YEARBOOK**: a collection of key digital, social and mobile statistics for 232 countries around the world. This document is part of our broader Digital in 2016 report, which we've split into three distinct parts in order to share a wider and richer variety of data and trends:

DIGITAL IN 2016

- The main report, which contains regional and global overviews, together with in-depth profiles of 30 of the world's top economies. **Click here** to access Digital in 2016.

2016 DIGITAL YEARBOOK

- The document you're reading now, which contains high-level profiles of 232 countries around the world.

EXECUTIVE SUMMARY

- Our analysis of this year's key data and trends, together with our forecasts for the coming twelve months. Read We Are Social's Executive Summary by **clicking here**.

If you have any questions about what this data might mean for your organisation, or if you'd like to know how We Are Social can help you make sense of it all, please visit us at **wearesocial.com**, **click here** to email us, or contact us on Twitter: **@wearesocialsg**.

SPECIAL THANKS

We'd like to offer our thanks to **GSMA Intelligence** for providing their valuable data for this report. GSMA Intelligence is the unit within the GSMA that houses the organisation's extensive database of mobile operator statistics, forecasts, and industry reports.

GSMA Intelligence's data covers every operator group, network and MVNO in every country – from Afghanistan to Zimbabwe. Updated daily, it is the most accurate and complete set of industry metrics available, comprising tens of millions of individual data points.

Leading operators, vendors, regulators, financial institutions and third-party industry players rely on GSMA Intelligence to support strategic decision-making and long-term investment planning. The data is used as an industry reference point and is frequently cited by the media and by the industry itself. GSMA Intelligence's team of analysts and experts produce regular thought-leading research reports across a range of industry topics.

Learn more about GSMA Intelligence at <http://www.gsmaintelligence.com>

DATA SOURCES USED IN THIS REPORT

POPULATION DATA: United Nations World Population Prospects, 2015 Revision; US Census Bureau (2016 data); United Nations World Urbanization Prospects, 2014 Revision.

INTERNET USER DATA: InternetWorldStats (November 2015 Update); ITU *Individuals Using the Internet*, 2015; CIA World Factbook, January 2015; The Prospect Group; The China Internet Network Information Center; The Telecom Regulatory Authority of India; Asosiasi Penyelenggara Jasa Internet Indonesia; Nigerian Communications Commission, Nepal Telecommunications Authority. We have also used active Facebook accounts as a proxy for internet users in countries where no internet user data is available, or where reported internet user numbers are significantly below the reported number of active Facebook accounts.*

SOCIAL MEDIA AND MOBILE SOCIAL MEDIA DATA: Latest reported monthly active user data from Facebook, Tencent, VKontakte, LINE and Kakao as at January 2016. VKontakte mobile data extrapolated from LiveInternet.ru. Thanks to Niki Aghaei for her assistance with collecting and understanding social media user data for Iran.

MOBILE PHONE USERS, CONNECTIONS AND MOBILE BROADBAND DATA: Latest reported national data from GSMA Intelligence (Q4 2015).

FLAGS: Identification and images c/o Wikipedia.

NOTES: *In a few instances, Facebook's reported number of active accounts for a given country exceeds the number of reported internet users, so, where relevant, we've adjusted the internet user numbers for these countries to reflect the number of active Facebook accounts. However, in the case of the Philippines and Russia, we've left the figures as-is to provide greater ease of comparison with our companion Digital in 2016 report. We left internet user figures as-is in that report because we provided a range of other internet user data, which should allow readers to select the values they believe best suit their needs.

IMPORTANT NOTES

We Are Social publishes its compendium of digital, social, and mobile media statistics on an annual basis, but on occasion we may need to alter or update the information and data contained therein.
